

my makeup makeover tm

eye shape: wide-set

Highlight shade: Apply to browbone and lid.

Midtone shade: Starting from the outer corner of the crease, bring the color towards the inside corner of your eye. Be sure to apply a few more layers to the inside corners to deepen the color and help visually push the eyes closer together.

Accent shade: Starting slightly in from the outer corner, brush it across the upper lash line and up into the crease of your eye. Also sweep it underneath the lower lash line, being careful not to extend the color beyond the outer edge of the eye.
